- [Early Intervention Certified Practitioners](#)
- [Part C Staff Directory](#)

In This Issue

EARLY INTERVENTION TRANSITION TO MEDICAID MANAGED CARE COVERAGE

As the Early Intervention transition to Medicaid managed care continues the Department of Medical Assistance Services (DMAS - the state Medicaid agency), local systems, managed care entities, and the Infant & Toddler Connection (at the Dept. of Behavioral Health and Developmental Services- DBHDS) are working together to resolve problems. The workgroup is focusing on resolving issues in the following areas:

1. Provider enrollment and credentialing with the managed care entity
2. What needs to be included on the Individualized Family Service Plan (IFSP)
3. Submitting a correct (clean) claim
4. Correct reimbursement

If you have issues that you have been unable to resolve with the managed care entity, DMAS has two dedicated emails for questions and concerns.

FREE RESOURCES: HANDOUTS ON AGE-EXPECTED FUNCTIONING BY AGE LEVELS

The new Child Development course on the Virginia Early Intervention Professional Development website, eLearning Center includes printable handouts on age-expected functioning by age range... very handy! The whole course is new as of December 2018, with a focus on functioning within daily routines and activities. It's the perfect complement to our statewide focus on functional assessment and the child outcome summary process. If you haven't taken this new online course yet, we strongly encourage you to do so! Already-certified practitioners who complete the course can use it towards the 30 hours of professional

development required for re-certification. Find it here, under Initial Certification:
