**4.0 ASSURANCES**

4.1 The Local Lead Agency will:

- a. Provide financial reports containing information that the State may require; and
- b. Keep financial records and afford access to those records as the State may find necessary to assure the correctness and verification of reports and proper disbursement of funds provided under Part C.

(34 CFR 303.122)

4.2 The Local Lead Agency assures through the terms and conditions of interagency agreements, contracts, and purchase orders, the following:

- a. Federal funds made available under Part C will not be commingled with State funds.

(34 CFR 303.123)

State funds in this assurance references Federal, State, local and private funding sources other than federal Part C funds. This assurance is satisfied by the use of an accounting system that includes an “audit trail” of the expenditure of funds awarded under Part C. Separate bank accounts are not warranted.

- b. Federal funds made available under Part C will be used to supplement and increase the level of State and local funds expended for infants and toddlers with disabilities and their families and in no case supplant such State and local funds appropriated or budgeted at the state and local level for Part C services.

(34 CFR 303.124)

To meet this requirement, the total amount of State and local funds budgeted for expenditures in the current fiscal year for early intervention

services for Part C eligible children must be at least equal to the total amount of State and local funds actually expended for early intervention services for these children and their families in the most recent fiscal year for which information is available.

- c. Fiscal control and fund accounting procedures will be adopted as may be necessary to assure proper disbursement of, and accounting for, Federal and State funds paid under Part C.

(34 CFR 303.125)

- d. Every effort will be made ~~during planning and implementation of the interagency system of early intervention services~~ to routinely and regularly consider and access all available sources of funds prior to use of Part C funds. To meet the payor of last resort provision, the requirements on non-substitution of funds and non-reduction of other benefits must be met.

(34 CFR 303.126)

In accordance with this payor of last resort provision, Part C funds may not be used as a reimbursement source in the following instances:

1. For a family with private insurance, Part C funds may not be used to make up the difference between the usual and customary rate paid by the insurance company for a service and the local participating agency's/provider's cost to provide that service. By being a provider for that insurance company, the local participating agency/provider has agreed to accept that usual and customary rate as payment in full.
2. For a child with Medicaid, Part C funds cannot be used to make up the difference between the amount reimbursed by Medicaid and the local participating agency's/provider's cost of providing that service. As a Medicaid provider, the local participating agency/provider has agreed to accept reimbursement at the Medicaid rate as payment in full.
3. For a child whose family is paying according to the statewide Part C ability to pay scale, Part C funds cannot be used to reimburse the agency for the family fee if the family states they are unable to pay the fee (even after all appeals are exhausted) if state, local or federal funds are used to support the provision of any early intervention services provided by the agency.

Specifically, this requirement applies primarily to public agencies including, but not limited to, CSBs and Health Departments that use public funds to provide early intervention services. It also applies to private agencies that provide early intervention services via a lump sum contract with a public agency. This does not apply, however, if early intervention services are purchased from a vendor at a per service rate.

- e. Part C funds will be used by the Local Lead Agency to plan, develop, and implement a local interagency system of early intervention services for Part C

eligible children and their families as defined in State policies and will be expended in accordance with Federal requirements, including requirements for the provision of direct services not provided or funded by other sources.

(34 CFR 303.3; 34 CFR 303.144; and 34 CFR 303.127)

- f. Local policies and practices will be implemented that provide access to culturally-competent services within the local Part C system for traditionally-underserved groups, including minority, low income, and rural families.  
(34 CFR 303.128)
- g. All Federal, State, and local policies and procedures for Part C implementation are implemented through local interagency agreements, contracts, and/or memoranda of understanding.
- h. All local participating agencies/providers are informed of the assurances listed above and that the obligation to comply with these assurances is included in all contracts, agreements, and purchase orders with local Part C services providers.
